

3<sup>rd</sup> June 2009

## ASX ANNOUNCEMENT

### Weekly Operations Update

#### **Waggamba-5H (PL 202, Surat-Bowen Basin, Qld, MOS-50%)**

Mosaic Oil NL (ASX: MOS) advises that MB Century Rig #7 is currently being rigged up at Waggamba 5H for a workover of this well to clean out an interpreted blockage in the horizontal section which has adversely affected production performance. Workover operations are expected to commence by Friday 5<sup>th</sup> June and take approximately two weeks to complete, following which the well will be recompleted and a production test carried out.

#### **Churchie-11 (PL 192, Surat-Bowen Basin, Qld, MOS-100%)**

Churchie-11 has been completed as a Tinowon gas/condensate producer. A production test will commence later this week to determine productivity of the completed well.
